

Ref. 151280

The DACOMEX FTP Cat.5e RJ45 cross cord is the best way to forward Ethernet data !

Cat.5e RJ45 cross cord 4 FTP pairs

Ideal for network cabling!

The DACOMEX FTP Cat.5e RJ45 cross cord is conceived to forward Ethernet on 4 pairs of twisted coppers and over a maximum length of 100 meters with RJ45 plugs at each end (frequency up to 100 MHz). Its shielding allows to reduce up to 100 times the magnetic disturbances.

2 years
warranty

Feature highlights

- Moulded cord
- Flow up to 155 Mbit/s in ATM and 1.000 Mbit/s in Ethernet
- Shielding

2 years warranty
